

## **STEAM & Discovery Education**

Did you know? All Nevada educators have access to over 200,000 digital resources in Discovery Education.

# NEWS Note Base Park and Parket State

#### Nevada Gold Mines Career Profiles

Dig into mining career opportunities in Process Engineering, Geology, IT, CSR, Health & Safety, and Environmental Engineering.

#### **STEM Careers Channel**

Help your students visualize themselves working in the fields of science, technology, engineering, or math—perhaps as pilots, video game designers, skate park designers, or chemists.

#### **Virtual Field Trips**

Take your students into some of the world's most iconic locations for rich and immersive learning experiences—no permission slips required.

#### **STEM Camp**

Explore resources to make STEM sizzle for your students. These camp sessions include activities, investigations, and opportunities for students to use the 4Cs through fun and innovative remote learning experiences.

#### News & Current Events

Follow emerging stories from around the globe and consider in-depth features on politics, conflicts, sports, the environment, health, technology, and more.

### Visual and Performing Arts

Explore what is trending with other educators in dance, music, theater, and visual arts.

If you have access to Clever, find DE there. If not, check with your IT department on how to access.
